Summer 2009	Peace is Possible A Prescription (Evening Introduction)	Austin
	<p>How to return to a state of peaceful existence, peaceful expression? It is indeed a return to the state of peace rather than the accomplishment of a state never known to us. The state of peace is our natural state. It is who we are at the very core of our being. There at the center of our being it rests, imprisoned by our fears, our conditioning, our belief systems. Peace is confined there awaiting liberation. This workshop introduces a prescription for liberation: "Liberate yourself from the Five Confinements".</p> <p>Participation: \$40</p>
